JORDAN'S ECONOMIC IMPORTANCE

Jordan has a sound and resilient economy which gives it the capability of adapting to local & regional shocks and to achieve growth at stable and sustainable rates. Despite the fact that the global economy is engaged in a struggle with three economic and financial crises not seen in terms of economic growth rates especially for emerging and developing economies and deterioration of the indicators of financial strength in international credit markets. However, the national economy continues to perform strongly in many of its financial and sectoral indicators, including economic growth.

GEOGRAPHIC LOCATION OF JORDAN

Jordan is located to the south of the Syrian Arab Republic, to the east of the State of Palestine, to the north of Saudi Arabia, and the west of the Republic of Iraq. This makes it an important link between three developing countries including economic growth. Jordan is also a member of the World Trade Organization and an important regional center and one of the most desirable investment locations in the region.
